

Capsule Endoscopy

Information and care after capsule endoscopy.

Care after the examination

- You may resume your usual diet unless you have been instructed otherwise.
- Check your stools to confirm that the capsule has passed. You do not need to retrieve it.
- The capsule should pass naturally 24 to 72 hours after the examination. If you have not seen it pass after one week, contact the Special Examinations Unit.
- Do not expose yourself to electromagnetic fields, such as magnetic resonance imaging, until the capsule has passed.

Signs and symptoms of complications

- Severe abdominal pain.
- Persistent nausea or vomiting.
- Heavy bleeding from the anus.
- Fever.

Contact details

If you notice anything unusual after the examination, contact the Special Examinations Unit on 967 776 921 or 210 025 255/0 on working days between 08:00 and 20:00. You should also contact your attending doctor or go to an emergency department.
